

Mr. Paul Evans

President - Australia Institute of Waterproofing (AIW)

Tel: +61-418-312-646

Fax: +61-3-9427-0745

Email: info@waterproof.org.au

Address: 155 Barkly Ave Burnley Vic Australia 3121

Biography:

Paul Evans is a Registered Building Practitioner (RBP) & Master Builder Specialist Contractor -Waterproofer.

Paul has over 30 years' experience in the construction industry in Australia and specializes in commercial & industrial waterproofing projects.

Paul is passionate about training and standards within the Australian waterproofing industry and is the current President of the Australia Institute of Waterproofing (AIW) and has participated as an active AIW committee member for over 6 years.

The **AIW** represents the interests of the total industry in raising the standard of waterproofing in Australia by becoming the 'central source' of knowledge, augmented by members experience to mentor continuous change.

As President of the AIW, Paul was instrumental in designing with the Master Builders Victoria (MBAV) Training Program 2017 *“Waterproofing in Construction Course”*.

The MBAV Training Course is aimed at industry professionals who have a responsibility to ensure a construction project is water tight and intended to educate with respect to planning, design, selection of products and waterproofing application.

Paul has recently worked and consulted with the Victorian State Government's Building Authority (VBA) – Regulations Sunset Review 2017.

This is government review process taken every 10 years by the Department of Environment, Land, Water and Planning of current building regulations to ensure that these regulations remain efficient and effective and with options to develop new regulations.
